

Installation

Model specific instructions

For:

- Triumph Street Twin
- Triumph Street Cup
- Triumph Street Scrambler
- Triumph Bonneville T100

These instructions are a model specific add-on to the general BoosterPlug installation instructions.

The general BoosterPlug installation instructions can be found in the "Downloads" section on the BoosterPlug.com website:

<http://www.boosterplug.com/shop/cms-downloads.html>

Installation Tips

- Install the BoosterPlug module as per the general installation papers.
- The picture below should help you locate the AIT sensor where the BoosterPlug is installed.
 - The AIT sensor is found in the rear top of the air filter box.
 - Just remove the seat and you can access the AIT sensor in the top of the air filter box.
- You have several choices for the BoosterPlug sensor location, but our favorite place is near the steering head or under the head light. Next to the airbox snorkel air intake hole is another very good spot.
 - Just stick to the simple rules in the general installation instructions for placing the external sensor, and you'll be fine.
